CHECKLIST OF THE BIRDS

Celery Farm Natural Area

Allendale, New Jersey

CELERY FARM
175

STILES THOMAS

This checklist includes 240 species that have been observed at the Celery Farm Natural Area. Fifty six (56) species of birds are known to breed in this environment.

The Celery Farm Natural Area, over one hundred acres of fresh-water marsh and woodland, was acquired by the Borough of Allendale in 1981 with assistance from the New Jersey Conservation Foundation and financing from The New Jersey Green Acres Program. The Fyke Nature Association has volunteered to maintain and improve the refuge.

SEASONS

Winter	(Wi)	December - February
Spring	(Sp)	March - May
Summer	(Su)	June - August
Fall	(Fa)	September - November

KEY

A	Abundant	Species which is very numerous
C	Common	Should be seen or heard in suitable habitat
U	Uncommon	Likely to be present, but not certain to be seen or heard
O	Occasional	Seen only a few times each season
R	Rare	Possible to be present, but not seen every year
X	Accidental	Very rare, out of normal range
*	Known to have nested	

Please report unusual species or birds not on this list to:
